GROUP 3A INSECTICIDE**

Brigade EZY

GRANULAR TURF INSECTICIDE

PRODUCT DESCRIPTION

Brigade® EZY is a new generation, non-scheduled, broad spectrum granular insecticide specifically designed for the professional turf management industry. The unique formulation technology of Brigade® EZY allows each granule to disperse evenly when exposed to moisture making applications more accurate and coverage more thorough. Brigade® EZY granules are larger than traditional sand granules and has been designed to suit most spreaders.

WHERE TO USE

Registered for the control of a wide range of adult insect pests in turf. This product is ideal for all recreational, public and private lawns. Being non-scheduled Brigade® EZY can be used in schools and government sites. Brigade® EZY is ideal for treating turf pests when extended rain periods limit the use of liquid sprays and in public areas around the outside of structures and buildings where spraying liquid insecticides is not practical or possible.

FEATURES & BENEFITS

- Unique easy to spread formulation
- Improved dispersion of the granules when wet
- Suits most turf broadcasting machinery
- Non-scheduled
- Odour free, non staining, not phytotoxic
- Broad spectrum
- Fast knockdown and long residual
- Ideal for applying in wet weather
- Cost effective and convenient to use
- Easy to dispose of packaging

HOW TO APPLY

- Small areas - shaker packs
- Medium areas - hand held granule spreaders
- Large areas - machine mounted granule spreaders

Areas should be irrigated with at least 4mm of water immediately after application.

(Refer to the label for application instructions)
