

## Another benefit of the clear formulation

**Generic bifenthrin**

**Biflex<sup>®</sup> Aqua**

**Biflex<sup>®</sup> Mikron**

Gone are the dirty filters and pumps and equipment with a build up of particles from an SC formulation.

You can see here a comparison with our own Biflex<sup>®</sup> Aquamax in the centre as well as a generic bifenthrin mixture on the left.

This is only after 15 L through a Rega hand sprayer with the filter located in the handle

The results speak for themselves **NO MORE DOWNTIME  
CLEANING STRAINERS**
